A sustainable future for our communities

It's not always convenient for homeowners to make proactive upgrades, but they can take advantage of key windows of opportunity to build resilience into their homes.

Our two new climate coverages are designed to do just that.

Stronger Home coverage

We will pay the increased cost to repair or replace a client's roof or exterior siding with more resilient materials when a loss occurs.

Eco-Friendly coverage

When a loss occurs, we will cover the increased cost of repairing or replacing their property with Energy Star rated products and eco-friendly materials.
